# SMOKE POINT

## VEGETABLE OILS

The smoke point is the point that indicates, when the fat begins to burn by heat food preparation.

# RACIOL

The traditional over the years proven brand Raciol offers the best quality oil for all-purpose use in the kitchen. The brand Raciol is the most known brand of vegetable oils in Slovakia (up to 80 % spontaneous brand awareness), its popularity and quality is proven by the 7 Superbrands awards.

## RACIOL RAPE OIL

It is nutritionally highly valuable, because it contains up to 60 % of monounsaturated fatty acids (omega-3 and omega-6) and 10 % acid a-linolenic.

Use: great for longer heat preparation of food, like cooking, baking and frying.

Package size: 1 L, 2 L, 5 L

## RACIOL SUNFLOWER OIL

Contains an important amount of the natural vitamin E, which is known for its positive health impact, it mainly works like a natural antioxidant.

Use: suitable for regular cooking or baking. We don't recommend to exceed the temperature 180 °C.

Package size: 1 L, 2 L, 5 L

## RACIOL PLUS VITAMINS

Rape Raciol enriched with vitamins E and D. The vitamin D contributes to keep healthy bones and teeth. The vitamin E contributes to the protection of cells from oxidative stress.

Use: great for longer heat preparation of food, like cooking, baking and frying.

Package size: 1 L

## RACIOL WITH HERBS

(garlic+basil+dried tomatoes, chili+basil+dried tomatoes)

The first-grade rape Raciol from the first pressing, which keeps a soft flavour of the oil and all nutritional values, because it is pressed very gently.

Use: great for longer heat preparation of food, especially grilling and baking. The unique combination of the ingredients creates a savory, sharp taste. It originally flavours the meat, vegetables or pasta.

Package size: 250 ml

# HELIOL FRITOL

The well-known Slovak oil brands Heliol and Fritol offer the highest oil quality. While Heliol is purely a sunflower oil with an all-purpose use in the cuisine, Fritol is a mixture of high-quality HOSO oil, which makes it suitable for high processing temperatures, so for deep-frying and frying. Both brands can boast a high rating from customers, who decided, that the Palma oils are the best choice in value for money and boast a Best Buy Award medal.

## HELIOL

100 % pure sunflower oil. Contains a high content of the vitamin E and valuable polyunsaturated fatty acids. It is suitable for short-term preparation of food in warm cuisine. It is not suitable for food preparation at higher temperatures, like deep-frying or longer frying in a pan.

Use: suitable for regular cooking or baking. We recommend not to exceed the 180 °C temperature while cooking.

Package size: 1 L, 2 L, 5 L

## FRITOL

Fritol is a high-quality mixture of first-class vegetable oils with a long lifetime - rape and sunflower oil with a higher ratio of oleic acid (HOSO). It is perfect for a long heat food preparation at high temperatures, like frying and deep-frying. The oil has a 2,5 times higher heat stability compared to regular sunflower oils, it doesn't smoke and doesn't overburn.

Use: recommended to be used in a deep-fryer, repeatedly with no risk of overburning and changing of the taste of food. Also perfect for frying on a pan.

# A real taste of olives Ocho

Olive oils are an increasingly popular alternative of our regularly used oils. Their intense aroma and unmistakable taste will take us to the holiday coastal areas. Olive oils are a source of vitamins and antioxidants, they have a high content of unsaturated fatty acids. Based on the type of processing and degree of acidity we distinguish olive oils into extra virgin and refined olive oils. Each of them is meant for a different use in the cuisine.

## OCHO DELICIOSO

100 % extra virgin olive oil is made exclusively by mechanical cold pressing of the finest olives. This premium olive oil contains no additives, it is a pure oil from the first pressing of olives. It has a characteristic strong bitter-spicy taste and a strong aroma.

Use: primarily intended for flavouring of meals in cold cuisine. Ideal for salads, pasta, flavouring of soups and sauces.

Package size: 500 ml, 750 ml

## OCHO CLASSICO

Olive oil - a mixture of a refined olive oil and a high-quality extra virgin oil. The oil has a higher heat stability and is also intended for the warm cuisine - suitable for cooking, baking or grilling. It has a nice light olive aroma and a very soft taste.

Use: intended for warm cuisine, perfect for cooking, marinating and grilling.

Package size: 500 ml

## OCHO INTENSO

Olive oil - a mixture of a refined olive oil and a high-quality extra virgin oil. The oil has a higher heat stability and is also intended for the warm cuisine - suitable for cooking, marinating or grilling. It has a savory olive aroma and an intense taste.

Use: intended for warm cuisine, perfect for cooking, marinating and grilling.

# PALMA SPECIAL OILS

The Slovak special oils from Palma are made from typical Slovak ingredients - walnuts, pumpkin and poppy. The special oils are pressed cold and thanks to that they are distinguished by high-quality and mainly by their health and nutritive benefits. For their 100 % Slovak quality they received the prestigious award Quality food Slovakia - Značka Kvality SK. They have a strong taste and aroma, so they are also ideal for gourmet cooking.

## POPPY OIL

Cold pressed oil from ripened poppy seed, which does not contain opium. It is rich in nutrients and at the same time stands out with a strong aroma and taste, which have a great use in the cuisine. It is a source of vitamins, minerals, unsaturated fatty acids, carbohydrates, protein and calcium, it contains high levels of omega 6 fatty acids.

Use: suitable for preparing of desserts, for example poppy strudel or other poppy meals, and you can use it in preparation of soups, sauces or flavouring salads.

Package size: 250 ml

## PUMPKIN OIL

It is pressed cold from raw pumpkin seeds, in order to preserve all needed nutrients. It has a high content of vitamin E. It is also a source of mineral elements such as zinc, potassium, magnesium. It has a delicious taste and characteristic dark green colour, because of that it is popular in the cuisine for the final flavouring and food decorating.

Use: suitable for cold and warm cuisine, gives the meals a great dose of originality and amazing taste. You can add it to soups, sauces, salads, dressings and spreads.

Package size: 250 ml

## WALNUT OIL

Cold pressed oil from walnuts, rich in high-quality nutrients. The oil has a soft nut delicate taste, thanks to that it is a great flavouring in the cuisine. It contains a great amount of unsaturated fatty acids. It is a source of protein, vitamins E, B1 and B6, selenium, phosphorus, magnesium and sodium.

Use: it is suitable like a flavouring to yoghurts, puree, curd cheese, cocktails and fruit salads. Can be used for preparing meat, flavouring of soups, sauces and different types of baked goods or cakes.

perfume without allergens

### BUPI BAR SOAPS

The first bar soap for children with lanolin was made in Palma already in the year 1971. This soap was the best selling soap in Czechoslovakia. Every mum and grandma knew it. The original formula of the bar soap hasn't been changed even after many decades. It is still of high-quality, soft and gentle on the child's skin and passes the same strict quality control.

#### BUPI BABY SOAP WITH LANOLIN

The soap contains quality natural substance lanolin, which keeps the skin soft, smooth and optimally hydrated. It protects the babies' soft skin from unwanted external effects, and it has a healing and calming effect as well.

Use: for everyday gentle cleansing of the baby's skin, from birth (0+).

Package size: 100 g

#### BUPI BABY SOAP WITH CAMOMILE

Natural camomile extract is the base of this baby soap. The small camomile flower hides inside the healing power of the nature, which in the form of a soap softly and sensitively treats an irritated baby skin, it also has an anti-inflammatory and disinfectant effect.

Use: for everyday gentle cleansing of the baby's skin, from birth (0+).

Package size: 100 g

#### BUPI BABY SOAP WITH OLIVE OIL

The soap with olive oil protects the skin from excessive drying, softens it and treats. This soap is famous for its great hydrating and calming effects on sensitive baby skin as well as nutritional qualities.

Use: for everyday gentle cleansing of the baby's skin, from birth (0+).

Package size: 100 g

#### BUPI BABY SOAP WITH MARIGOLD

The soap contains a beneficial marigold extract, which reduces the irritation on a baby skin a naturally protects it. At the same time it gently softens and smoothes the skin. Marigold contributes to a faster relief of irritated areas of babies' skin, for example by intertrigos.

Use: for everyday gentle cleansing of the baby's skin, from birth (0+).

Package size: 100 g

#### BUPI BABY SOAP WITH MILK

The soap with a milk protein content adds hydration and softness to the baby's skin, has a positive impact on the regeneration of skin cells also in case of irritation of strained places, like the baby bottom, armpits or neck.

Use: for everyday gentle cleansing of the baby's skin, from birth (0+).

## BUPI BABY BATHING

Bupi is an original Slovak brand, on which three generations of Slovaks have grown up. For almost three decades it has been taking care of babies with a special softness and it's typical scent is the synonym of a baby's scent in Slovakia. Thanks to the gentle formula it is recommended by Slovak pediatricians.

### BUPI BABY SHAMPOO

Thanks to a balanced content of lanolin it provides an optimal hydration and smoothness to the skin. Panthenol positively affects the quality of fine baby hair, it calms the baby's skin, softens and protects it from inflammations.

Use: for everyday gentle cleansing of the baby's hair, from birth (0+).

Package size: 500 ml, 230 ml

### BUPI BABY WASHING FOAM

Thanks to a gentle foam texture with a content of allantoin is the baby foam suitable for everyday use for body and hair. It is very soft and gentle on the softest newborn skin. The foam is without soap, easy to use and rinse.

Use: for everyday gentle cleansing of the baby's skin or hair, from birth (0+).

Package size: 500 ml

### BUPI BABY SOFT BATH 3 IN 1

The bath combines a soft washing gel, hair shampoo and bath foam. The bath consists of beneficial marigold, which regenerates and calms, has anti-inflammatory and healing effects.

Use: for everyday gentle cleansing of a baby's body and hair, from birth (0+).

Package size: 500 ml, 230 ml

### BUPI BABY WASHING GEL WITH LAVENDER

A gentle washing gel, developed for easier falling asleep and for a good sleep of the babies. It's soft lavender scent calms the baby and the falling asleep after a bath will be easier and more pleasant. The gentle gel also has a regenerative affect on the skin.

Use: for everyday gentle cleansing, for baby's skin or hair, from birth (0+).

Package size: 500 ml

### BUPI BABY BODY LOTION

It is very easy to apply on the skin and thanks to the content of natural oils (macadamia, grape, sunflower) it hydrates and softens. It contains the active substance Bisabolol, which affects against an irritated skin.

Use: for everyday use like a nice part of the evening bath. Thanks to its composition it treats and provides nutrition the baby's skin, from birth (0+).

### BUPI BABY WASHING

The brand Bupi knows, that for mums is not only the hygiene of the baby, but also of the clothes it is wearing the whole day important. A newborn has a five-time thinner skin than an adult, that means the skin is very sensitive and easy to irritate. You shouldn't rely on common washing detergents, which are aggressive to the skin and can cause allergies. A healthy washing of the newborn's layette is an important foundation for a healthy skin. Washing without phosphates, bleachers and softeners should be a condition for your baby.

### BUPI BABY LIQUID WASHING GEL SENSITIVE

A special washing detergent containing soap meant for washing baby and children clothes. Its composition isn't irritating a sensitive skin and is suitable for allergic people, because it doesn't contain enzymes, phosphates, colourings or optic lighteners. The Bupi washing detergent smells nice, the perfume doesn't contain allergenes.

Use: for gentle washing in a washing machine or hand wash, from birth (0+).

Package size: 1,5 L, 3 L

### BUPI BABY LIQUID WASHING GEL COLOUR

The special washing detergent containing soap, with an ingredient for protecting colour of the clothes, is intended for washing coloured baby and children clothes. Its composition isn't irritating the skin and is suitable for newborns as well as allergic people. The detergent is suitable to use while washing soft coloured fabrics.

Use: for washing coloured baby clothes in hand wash or washing machine, from birth (0+).

Package size: 1,5 L, 3 L

### BUPI BABY WASHING POWDER SENSITIVE

Bupi offers apart from its proven liquid washing gels also a special washing powder for a gentle, but sufficiently effective washing of clothes. Its composition is designed not to irritate sensitive baby skin and at the same time to clean also more unclean clothes.

Use: for gentle washing in a washing machine or hand wash, from birth (0+).

Package size: 1,5 kg

### BUPI BABY SOFTENER SENSITIVE

The pleasant and very soft scent of the Bupi softener uses a perfume without allergenes, so it is tolerated very good by small babies and newborns. The composition of the softener prevents hardening of the fibres and the clothes are soft and pleasant to touch after drying. The scent is very soft and safe for the baby, because it reduces a potential risk of allergies.

Use: after the use of the softener in the last stage of rinsing will the clothes smell beautifully and be soft.

Package size: 1,5 L

suitable from day one after birth

no irritating enzymes and phosphates

## BUPI WIPES

The skin on a baby's bottom is very gentle and sensitive. Despite that is this part the most strained part of the baby's body - mainly the parts in contact with the diaper. Pediatricians advise, that with the use of the correct wipes you can prevent irritations and inflammations. Wipes are also an absolutely essential aid for kindergarden kids and pupils in their everyday adventures.

### BUPI BABY WET WIPES SENSITIVE

The soft Sensitive wipes are the best for everyday care of the baby's bottom and for wiping of hands and mouth. Thanks to the healing aloe vera extract they calm and hydrate the skin and as a precaution prevent possible problems with irritated skin. The wet wipes are pH neutral, they don't contain parabens, alcohol nor colourings. The pleasant and very soft perfume is without allergens.

Use: for everyday gentle cleansing of the baby's body, from birth (0+).

Package size: 56 pcs

### BUPI BABY WET WIPES ULTRA SOFT

The ultra soft wet wipes with panthenol treat the baby's skin so soft almost like water. They don't contain perfume, alcohol nor colourings, so they don't cause irritations not even on the softest skin. The healing and anti-inflammatory effect of the panthenol sensitively treats and regenerates some possible irritations. Thanks to their composition and neutral pH they are suitable for an everyday treatment of the baby's skin.

Use: for everyday gentle cleansing of the baby's body, from birth (0+).

Package size: 56 pcs

### BUPI KIDS WET WIPES FOR ADVENTURES

The soft wet wipes with a beautiful tutti-frutti scent gently clean your children's hands or faces. They have a versatile use since they don't contain alcohol or colourings and don't cause irritations. Because of their composition with the extract from aloe vera they are suitable for everyday cleansing and treatment of the soft baby skin, and thanks to the small package you can put them in your pocket.

Use: for everyday gentle cleansing of the baby skin, from 3 years (3+).

Package size: 15 pcs

### FRITOL 10 L

Top quality frying oil. A mixture of vegetable oils (rape oil and HOSO - High Oleic Sunflower Oil). A high quality winterized oil with an increased heat stability.

Use: Ideal for a long heat preparation with high temperatures like deep-frying and frying.

Benefits: It preserves juiciness and softness of the prepared food.

### FRITOL GOLD BIB 10 L

A special designed mixture of vegetable oils (HOSO - High Oleic Sunflower Oil and sunflower oil). It contains special additives like natural antioxidants and antifoam substance, which ensure a high heat stability.

Use: Ideal for heat preparation of food - for deep-frying, frying and baking.

Benefits: It contains omega 9 fatty acids and vitamin E. It does not give food any unpleasant taste or smell when being fried. Contains special additives to improve oil qualities and stability. It does not contain palm oil, so it is very practical to filter.

### RACIOL 10 L (RAPE)

High-quality 100 % rape oil. Low-erucic acid single-type rape oil, which has a wide range of use in food preparation.

Use: Perfect for heat preparation of food and also for preparation of salads, mayonnaise and dressings.

Benefits: High content of omega 3 and 6 acids. Versatile, wide range of use in the cuisine. The product does not contain any additives.

### RACIOL GOLD FRIT BIB 10 L

Perfectly balanced mixture of vegetable oils (rape and sunflower oil). Contains special additives like natural antioxidants and antifoam substance, which ensure a higher heat stability.

Use: Perfect ratio of rape and sunflower oil for a long heat preparation of food - for deep-frying, frying and baking.

Benefits: High content of acids omega 3 and 6, also unsaturated fatty acids. Contains additives for improving oil qualities and stability.

### HELIOL 10 L (SUNFLOWER)

100 % sunflower oil of high-quality. Single-type winterized oil with a wide range of use in preparing food in the kitchen.

Use: Perfect for cold cuisine for preparing salads, mayonnaise and dressings, also suitable for heat processing - stewing and cooking.

Benefits: Wide use in the kitchen. High content of vitamin E. Does not contain additives.

### RACIOL WITH BUTTER AROMA, 1 L

Single-type rape oil with pleasant butter aroma.

Use: Suitable for warm cuisine for cooking and baking, but thanks to its butter aroma it is perfect for the cold cuisine to flavour dishes, which it gives a delicious buttery taste.

Benefits: High heat stability and pleasant butter aroma. Suitable also for people with lactose intolerance, because the butter aroma does not contain lactose.

### GURMÉ LONGLIFE 10 L

Special product for long frying in the form of a semi liquid gel. A mixture of selected vegetable oils (palm and sunflower) with ingredients, which were special designed for heat processing of food.

Use: Perfect for deep-frying, frying and baking. Compared to regular products it has a better heat stability thanks to its special formula.

Benefits: It has a neutral taste and aroma. The product has a high stability against oxidation. The semi liquid consistency enables an easier manipulation and dosage.

### PALMFRIET 10 L BUCKET

Deep-frying vegetable palm oil with high heat stability.

Use: Perfect for heat preparation of food like deep-frying, frying or baking.

Benefits: It preserves juiciness and softness of the prepared food. The product contains an antifoam substance, which improves the frying qualities of the oil.

### PALMFRIET PLUS 10 L BUCKET PALMFRIET PLUS 10 L PET

Mixed vegetable oil multi-type (rape and palm oil) with a high content of rape oil. The mix of oils provides a high heat stability.

Use: Perfect for heat preparation of food on high temperatures - for deep-frying, frying and baking.

Benefits: Wide use in cuisine also on high temperatures. Preserves juiciness and softness of the prepared food. The product contains an antifoam substance for improving the oil qualities.

### MINA 10 L (RAPE)

High-quality 100 % rape oil, low-erucic acid, deodorised.

Use: Oils perfect for heat preparation of food also for cold cuisine.

Benefits: Universal, wide use in cuisine. The products do not contain additives.

### MINA 10 L (SUNFLOWER)

High-quality 100 % sunflower oil, winterized, deodorised.

### TABLE MARGARINE 80 %

Vegetable baking margarine with a fat content of 80 %. It contains palm and rape oil and a pleasant butter aroma.

Benefits: Universal use, compared to edible fat and 100 % fat it is softer and smoother, it has a smoother consistency.

Use: The universal fat is intended for baking and confectionery products mainly for crisp pastry, yeast cakes, but also for preparing cremes.

### DRAFT MARGARINE SLICES 80 %

Edible vegetable margarine with a typical fat content of 80 %, mixture of high-quality vegetable oils.

Benefits: High-quality vegetable margarine with high plasticity.

Use: Mainly for preparing puff dough, yeast puff dough and laminated dough. It is used for lamination of puff and laminated doughs.

### FILLING FAT 100 %

Special 100 % vegetable fat of neutral taste and aroma ideal for preparation of fillings for non-perishable baked goods.

Benefits: Neutral taste and aroma. Its composition provides a good way for whipping, which will be appreciated by confectioners and bakers while preparing fillings for baked goods.

Use: Suitable for preparation of different kinds of stuffings and fillings for baked goods and cakes.

### PALMFRIT FAT 100 %

High-quality 100 % vegetable fat with a neutral aroma and taste and universal ways of use.

Benefits: Due to its suitable physical parameters it has a high heat stability. The neutral taste and aroma make it ideal for preparation of different bakery products.

Use: For excellent heat stability it is suitable for frying and deep-frying, and at the same time, thanks to its neutral taste and aroma, it has a universal way of use also for bakers.

### EDIBLE FAT 100 %

It is a 100% fat with neutral taste and aroma with a universal way of use. Besides from palm fat it doesn't contain water or any other ingredients.

Benefits: Universal fat with a wide way of use, it has a high heat stability. Packed in smaller 5 kg blocks.

Use: It is suitable for preparing fat fillings, bakery products, non-perishable baked goods and different kinds of frostings. Because it consists of palm oil and hydrogenated palm fat it is suitable for frying.
